SOLID WASTE FACILITY PERMIT

Facility/Permit Number:

37-AA-0005

17. LEA Conditions:

1. The design and operation of this facility must comply with the State Minimum Standards for Solid Waste Handling and Disposal.
2. The design and operation of this facility must comply with all federal, state and local requirements and enactments.
3. Additional information regarding the design and operation of this facility must be provided to the LEA upon request.
4. Operations shall prohibit scavenging, open burning and night-time operations.
5. Any change which would cause the design or operation of the facility to not conform to the terms or conditions of the permit would be considered a significant change and require a permit revision. If the operator proposes a significant change, an application for permit revision shall be submitted to the LEA 120 days prior to the change.
6. In no event shall any portion of the fill exceed a maximum height of 1700 feet above mean sea level. The final elevation of 1700 feet above mean sea level includes the final cover cap of four feet of material. No refuse fill shall be placed in accordance with the Staged Development Plan approved in February 1994.
7. Ramona Landfill, Inc., as the permitted operator may change the contract operator and submit an amendment to the RDSI.
8. The enforcement agency, through this permit, may prohibit or condition the handling or disposal of solid wastes to protect the public health and safety, protect, rehabilitate, or enhance the environment, or to mitigate adverse environmental impacts.
9. This revision of the SWFP supersedes the permit originally issued November 8, 1978. This revision reflects changes made at the landfill that makes the revision necessary. These changes include a change in operation under contracted operations, a modified Staged Development Plan, an on-site recycling center, the addition of a yard and wood waste grinding operation, a loadcheck program, and installation of a gas extraction system.
10. This permit is subject to review by the LEA and may be modified, suspended, or revoked, for sufficient cause after a hearing.
11. The operator shall maintain a copy of this permit and the State Minimum Standards for solid waste disposal at the site at all times.
12. There shall be no placement of wastes closer than 5 feet to the highest anticipated ground water level.
13. In accordance with Public Resources Code §44005, portions of the permit language were updated on October 31, 1997, to reflect a change in facility owner/operator.
